

Vertiv™ Avocent® MergePoint Unity™ KVM over IP and Serial Console Switch for Dell Plug-in for Avocent® DSView™ Management Software Release Notes

VERSION 2.10.0, JULY 23, 2021

Release Notes Section Outline

1. Enhancements
2. Notes

1. Enhancements

This release added support to push outlet names from the Vertiv™ Avocent® DSView™ management software for Vertiv™ Geist™ Power Distribution Units (PDUs) and Vertiv™ Liebert® MPH PDUs.

2. Notes

This plug-in requires the following:

- Java 8-based Avocent® DSView™ 4.5 management software, Service Pack 10 (SP10) and higher.
- Avocent® MergePoint Unity™ switch for Dell firmware version 2.10.0
